

EQUAL EDUCATIONAL OPPORTUNITY

The Governing Board’s policies must set high expectations for academic performance, and education of all students regardless of race, color, creed, disability, religion, gender, ancestry, national origin, English language proficiency, or social or economic background.

This policy will be communicated to all present School personnel and to all future employees.

Therefore, all aspects of a student’s education and development under the control of the Board, including but not limited to: tests, materials, athletics, activities, facilities curriculum, text books and other educational materials and supplies must be developed and implemented to achieve equal educational opportunity.
